Billers: Work from anywhere securely with SecureClaim

Our comprehensive cloud based medical billing software makes it possible to acquire data and manage billing, scheduling & reporting from anywhere securely. If you are considering transitioning from an on-premises to a cloud infrastructure, here's additional information to support your decision.

### Key Considerations

**Cloud**

- Hosted on Inmediata’s server and can be accessed anywhere via web-browser.
- Requires significantly less time for software implementation and administration.
- Lowers operational costs.
- All updates are pushed out automatically, ensuring your organization is always up to date with the latest software version.

**On Premises**

- Ongoing deployment process, including appliance maintenance, customizations and integrations and upgrading dependent applications.
- Requires more personnel resources hours on an ongoing basis.
- Annual maintenance costs.
- Planning for upgrades is required to ensure software is on the most recent version.

Inmediata’s Practice Management Solution SecureClaim, helps the medical office reduce their administrative costs by improving productivity with a comprehensive and visible claim billing process that promotes profitability.

Our fully featured practice management solution seamlessly integrates with both clearinghouse and electronic health record solutions to bring unparalleled simplification and efficiency to the practice. SecureClaim supports multiple specialty types including medical, dental, allied health and ambulance. SecureClaim supports billing for professional, dental, and institutional claims.
# SecureClaim Features

## CHARGE MASTER
Set up your charge master. SecureClaim supports billing from a charge master of from a payer specific fee schedule.

## PAYER FEE SCHEDULE
Load your payer fee schedules. SecureClaim has a robust contract compliance solution to insure you are getting paid correctly.

## PATIENT REGISTRATION
Register your patients. SecureClaim simplifies the task of registering patients and managing their insurance coverage information.

## SCHEDULER
SecureClaim supports multiple appointments books creations and multiple views, including up to 3 books altogether in the same window. Our appointment books are very flexible, easy to configure and allow to take any action from the appointment, from sending appointments reminder via text messages and emails, create superbills, registering patient payments & create claims to perform the eligibility check for all scheduled patients automatically (overnight).

## ELIGIBILITY
SecureClaim includes a full featured clearinghouse solution to seamlessly check eligibility any time in the revenue cycle process. Eligibility history is saved to simplify retroactive billing tasks. Eligibility is integrated into the scheduling solution to reduce administrative tasks at the point of service.

## SUPER BILL
SecureClaim provides electronic super bills that can be customized to the provider needs improves billing productivity. If you use an integrated electronic health record, the encounter is integrated into the coding process.

## CODING
SecureClaim insures you are billing from the most current libraries of procedure, modifier, and diagnosis codes. In addition to an ICD-9 to ICD-10 lookup solution, SecureClaim provides real time “clean claim” edits including payer specific clinical edits and an LCD procedure – diagnosis rules engine to insure a high first pass payment rate.

## FASTER PAYMENTS AND REIMBURSEMENTS
SecureClaim allows you to send payments electronically, cutting down on processing times.

## KEEP RECORDS UPDATED & ACCESSIBLE
SecureClaim makes it easy to update your records, as you can gather and update patient data through an integrated system.

## AUTOMATION
SecureClaim can help your office run more smoothly and cut down the time doctors and other clinical staff spend completing paperwork and gathering patient data.
